(bb) the methodology by which the State differentiates all such schools. A weighted average of the accountability indicators will be computed from the number of items meeting targets divided by the number of items evaluated. The weighted average will be scaled to grades A (90-100), B (80-89), C (70-79), D (60-69), and F (0-59) and further used to differentiate all public schools.

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. TEA uses the Closing the Gaps domain to identify campuses that have consistently underperforming student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered consistently underperforming. Any campus not identified for comprehensive support and improvement (CSI) that has at least one consistently underperforming student group is identified for targeted support and improvement (TSI). TSI identifies both Title I and non-Title I campuses. Data from 2018, 2019, and 2022 are considered consecutive years for 2022 TSI identification.
